7500 m²

VALUE:

\$1.2 million

DELIVERY MODE:

Construction Management

LOCATION:

Levels 3–7
Central Plaza 2
66 Eagle Street
Brisbane QLD

DURATION:

8 weeks

QUEENSLAND INVESTMENT CORPORATION COMMERCIAL FIT OUT

QIC's commercial fit out was a eight level tenancy in the heart of Brisbane. JAAM Projects undertook the project/construction management role of this project.

This project was an integrated fit out to install 9 new offices and 3 meeting rooms. We completed multiple workstation relocation and remodels within their existing tenancy to suit their needs—as they consolidated their tenancy layout.

JAAM needed to accommodate QIC's need to remain operational during the entire project so all works were undertaken out of business hours, at night and weekends. Professional hoardings were used to section off the construction zones from the general office areas.

Many challenges were presented during the project, including changes provided to the construction team at late notice. These were addressed quickly and the works were delivered on time.

We worked with QIC to move staff from certain areas of the office so work could be completed.

We are your builder of choice. Call us today (07) 3180 3390.
